MADEIRA  
MARCH .07

**“Discover the Past Artefacts”**

**The Coal – Iron**

Madeira Ethnographic Museum has developed an educational programme for its young visitors. Its pedagogical aim is to help the students, through appropriate guidance to become familiar with the museum’s collection and provide a framework for their visit.

For the current quarter, there is a tutorial about the Coal – Iron, which was in of great importance in the past, either for the urban or rural population.

The museum’s collection includes two different models: one is a flat iron to be heated externally, that is over a fire or a stove and another one with a hollow base into which the charcoal was placed
